**To:** Sterger, Justin - DEH Sr. Environmental Programs Administrator; Pitt, Charlotte S. - PW Manager  
**Subject:** RE: Cost of contract - EHS

Thank you both for the information and getting this moving forward. I've included my Lt. so we can hopefully move quickly to make this an option when outside of normal business hours for EHS.

Thanks Charlotte.

Yes, DPD would be able to also utilize this contract and we would need to establish a PO from DPD and issue a notice to proceed with work that the contractor would perform. I can assist in those areas and Brian my contact information is below.

**Justin W. Sterger** | Senior Environmental Administrator  
Environmental Quality Division, Denver Public Health & Environment | City and County of Denver  
p: (720) 865-5459 | m: (303) 881-8634 | [Justin.sterger@denvergov.org](mailto:Justin.sterger@denvergov.org)

**Subject:** Cost of contract - EHS

Hi Brian

Just so we can begin the discussion, I looked at the contractor fee schedule and chatted with Marty briefly on Monday. Very quick and dirty # as we'd need to revisit timing of call outs and actual time estimates, but I think a ballpark cost would be about \$500 (maybe a little more with bags and supplies) for one pick outside of our regular hours would be. If you want to explore further we can chat with Marty at EHS and Justin at DDPHE (he's our contract manager) and I've looped him into the email. The contract with EHS is housed with DDPHE but its set up so multiple agencies can use it. SO PW uses it and we pay for the work they do on our behalf, and Parks uses it and pays for the work they request. I don't think it would be difficult for DPD to also establish a work procedure with them and use the same contract.

Thanks  
Charlotte
